

COMMUNISM'S INFLUENCE IN CIVIL RIGHTS MOVEMENT

"... the Communists have a 'program minimum' that must weaken democratic capitalist America to such an extent that she will be no serious rival to totalitarian Russia. The simplest way to achieve this objective is to create disunity inside the United States—to promote racial and social conflicts, epidemics of hatred, suspicion, intolerance and political demoralization until the situation borders on civil war."

—Brigadier General Alexander Barmine, Russian exile who fled to the U.S.A. in 1940 to later become an American citizen (Oct. 1944 Reader's Digest).

"... it is to the interest of the Communist world conspiracy to promote and foster discontent of every possible kind... violence and disorder, especially between the races, are specific strategic objectives of the Communist Party in America."

—Senator James Eastland (July 22, 1964, U.S. Senate).

"The rioting and violence in Harlem and Brooklyn is regrettable, of course. It does seem, however, to focus attention for the first time on the key role which Communists have been playing in racial disturbances in this country... The difficulty with controlling these Communist-instigated riots in the North lies in the fact that our national leaders have encouraged lawlessness and civil disobedience, and this has been permitted to go too far under Communist inspiration and direction."

—Senator Strom Thurmond, interview with U.S. News & World Report, August, 10, 1964.

"There is no question that the Communists are heavily involved (in civil rights groups), more than people care to admit. And the Negro people are the Communist Party's largest target. And you have to admit the Communists have had some measure of success."

—Herbert Philbrick, who lived for 9 years as a Communist agent for the FBI (N.Y. Journal American, Aug. 7, 1964).

"The International Communist Conspiracy has for many years boasted that the racial question would form the core and center of an American revolution which would result in the domination of this country by the communists... The invasion of Mississippi, by expeditionary forces from other States, was carefully planned by the communist conspiracy, for the express purpose of creating civil disturbance beyond the ability of a single state to provide protection, which would result in a demand by the communist leaders in America that the federal government occupy the State of Mississippi, establish martial law, which would suspend habeas corpus, trial by civilian courts, and in fact suspend the entire Bill of Rights. If this is accomplished in Mississippi, it will expand into other states with destructive effect upon freedom and liberty. The cunning communists have been able to entice fine Americans to do their work, but the guiding hand is still the communist conspiracy."

—"Washington Report" of Congressman James B. Utt.

COMMUNIST PARTY U. S. A.

The Communist Party in this country continues its unswerving allegiance to the Soviet Union, which is committed to the goal of world domination and conquest by communism.

Blindly following the Soviet lead in all facets of international developments, it parrots the Soviet contention that there has been a shift toward communism in the balance of forces in the world that makes possible Communist advances without resorting to armed conflict in every area. As a result, the Communist Party, U.S.A. found itself embroiled in the Sino-Soviet dispute as to the means of communizing the world. In a public statement issued in January 1963, the party in this country announced it had sided with the Soviet Union in the dispute and defended the Soviet policy in the Cuban crisis. When the Communist Party of China sev-

The March 17, 1963, issue of Pravda—which is the official publication of the Soviet Communist Party—contained an entire page devoted to a series of tributes designed to show the solidarity of the Soviet Union with the party in this country.

CURRENT PARTY ISSUES

Currently, the Communist Party, U.S.A. is stressing such domestic issues as the racial struggle; the abolition of all internal security programs and of congressional committees investigating communism; and the reduction of military spending with the diversion of such appropriations to a broad program of social welfare projects. In short, the party is attempting to exploit what it describes as the built-in problems of our modern, complex, industrial society and claiming, at the same time, that these problems can be resolved only under the Communist system.

On the international level, the party is dutifully echoing Soviet propaganda regarding peaceful coexistence and peaceful competition, disarmament, an end to nuclear testing and increased East-West trade. In every phase of its propaganda on international relations, the party line has been that all Soviet actions reveal a desire for easing tension while American foreign policy is designed to incite world tension.

The above is from testimony given by J. Edgar Hoover, January 29, 1964, to Committee on Appropriations House of Representatives, Washington, D. C.

Johnson's "PEACE" Record

By F. George Kennedy, Milwaukee Metro

President Lyndon B. Johnson recently told reporters that there is much to be optimistic about in the world situation. He said things have improved over the past four years, and said if he is re-elected he will continue the policies of the last years which have lead to "peace." Let's look at the record.

FRANCE: President Charles De Gaulle openly appeases the Communists and calls for the "Neutralization" of Southeast Asia.

ENGLAND: Prime Minister Douglas Home's Conservative party, vies with Harold Wilson, labor party chief, in appeasement policies with the Soviet Union. Both men and their parties are strong advocates of so-called "disarmament."

WEST GERMANY: Ludwig Erhard has hinted that his country may be willing to recognize some of the Eastern European Communist countries. He has been encouraged to do so by the United States. West Germany remains one of the last hopes for the freedom of Eastern Europe.

EAST GERMANY: The Communists continue to suppress the hungry masses in ever increasing brutality, despite so-called "softening" of the Communist line. The wall grows thicker in East Berlin.

FORMOSA: Nationalists have been threatened with cut-offs in U. S. aid if they oppose Red China militarily in any way.

VIETNAM. Meanwhile American boys continue to fight Red Chinese in Viet Cong uniforms in a losing battle with World War II equipment, and commanders who would rather switch than fight.

LAOS: The U.S. imposed Neutral government in Laos has failed and failed and failed, while the U. S. continues to negotiate, negotiate, negotiate.

CAMBODIA: Our recognition of Neutralism here has resulted in another ally for the Bamboo branch of the International Communist movement.

BURMA: Things are so bad here, they even turn down American aid.

THAILAND: The onward rush of the Communists will soon leave this country... one of our friends... completely isolated. Thus, Southeast Asia will fall.

CUBA: Stands as a shining example of American weakness and capitulation.

PERU: Ripe for Communist take over.

BRAZIL: Safe for the moment from the Reds without our help. Had the Communists been running the revolution there, we would have been the first in line.

BRITISH GUIANA: A Communist launching base going virtually unnoticed.

TIBET: Where are the reports on this tiny nation since it was swallowed up by the Reds in 1959?
